ABOUT US

HEY, WE ARE ALINA & NADJA

We are Alina and Nadja and we got to know each other during our training as healthcare and nursing staff. After a few years, we realised that this profession should not be our final destination and so the idea for stayandrest was born. The result is a young company that specialises in the short-term rental of furnished and fully equipped flats, with the aim of providing flats where guests want for nothing.

In the furnished flats we have rented ourselves in the past, we often had the problem of not having fast internet access, a workspace, a well-equipped kitchen or the ability to check in when we wanted.

That's why we founded 'stayandrest', so that you can live anywhere like at home, with good internet, work facilities, well-equipped kitchens and, above all, contactless check-in.
